

Entrepreneur Jiu-Jitsu (EJJ): Part 1

If you're working on that entrepreneurial black belt, this one's for you! Shot on location at the Tai Lopez Private Business Retreat (Dec 2016) in Hollywood's Roosevelt Hotel, Renner Gracie demonstrates 3 of the most important principles of jiu-jitsu and explains their direct application in the world of business. By the time your done with this video you'll have earned your first stripe in EJJ!

Principle #1: Position Before Submission

- The right move at the wrong time is the wrong move.
- Sometimes a simple change in position is all you need.

Principle #2: Failing Forward

- If your stuck mourning the lost armbar, you'll miss the triangle opportunity.
- Believe that the triangle will come, and be prepared to take action when it does.

Principle #3: Comfort in Chaos

- Every “impossibility” is just a technique waiting to be discovered.
- Phone a friend, find a mentor, read a book...the answers are out there!
